Python Program to convert temperature in celsius to fahrenheit

*SEKHAR REDDY / sekharreddy717.niper@gmail.com / +918331995717 *

*DAY3 ASSIGNMENT _ PYTHON _ LETS UPGRADE *

```python
# Python Program to convert temperature in celsius to fahrenheit

# change this value for a different result
celsius = 50

# calculate fahrenheit
fahrenheit = (celsius * 1.8) + 32
print('%0.1f degree Celsius is equal to %0.1f degree Fahrenheit' %(celsius,fahrenheit))
```

⊳   50.0 degree Celsius is equal to 122.0 degree Fahrenheit
